WITH THE CITY COUNCILMEN

THE PRESENT WATER SITUATION AND FUTURE WATER SUPPLY FOR CITY THE SUBJECT.

At the meeting of the city council last night the water problem was about the only matter considered by the body.

A proposition from a medicine vender to sell his remedies on the streets of the city was tabled, and a communication from a company wanting to supply the city with water from deep wells was read, after a few bids were allowed, and then the engineers' estimate on the cost of bringing the Byrd's Mill water to Ada was received.

The preliminary estimates as compiled by City Engineer Ekman and Engineer Goodwin of Kansas City, placed the approximate cost of obtaining this water at \$145,007.00, which would call for a bond issue of \$150,000.00.

Mr. Goodwin was called upon for his opinion of the proposition. He discussed the cost and utility of the different piping, wood, concrete, steel and cast iron and advised the council to ask for bids on several different kinds. He thinks the water can, beyond a doubt, be brought here from Byrd's Mill by means of the hydraulic ram. Two rams at the mill will pump one million gallons per day, while to double the number of rams means a like increase in the

number of gallons of water. Then should the city grow to that extent where it would require more water than the hydraulic rams could supply, electric, gas or steam engines could be installed.

Altogether he was of the opinion that the Byrd's Mill proposition, is practical, economical and a sure way of obtaining an adequate, never-failing supply of good water.

The council then went into executive session, and passed an ordinance for the mayor to issue a proclamation calling for the election on a \$150,000 water bond issue on the twenty-third of December.

A motion to cut off the mills, gins, railroads, cement plant and all other machinery using a great deal of water from the city supply at six o'clock this afternoon carried. This action was necessary from the fact that the present amount of water in the reservoir is hardly sufficient to last much over fifteen days at the present rate of consumption. This being exhausted the city faces a water famine.

Notice to Tax Payers.

You are hereby reminded that your tax is now due and if the first half is not paid by the 31st of December all will be due January 1st, 1911. Your sewerage tax will all have to be paid by Dec. 15. You better get busy before the delinquent time comes. We can wait on every body at once.

J. C. CATES, County Treasurer.

EDMOND PREPARING FOR COMMISSION GOVERNMENT

Edmond, Okla., Nov. 28.—With more than two hundred signatures, the petition asking for the commission form of government in Edmond will be presented to Earl Hopkin, acting mayor, this morning. There are 229 legal voters in Edmond.

Definite action as to when the petition should be presented to the acting mayor was taken at an enthusiastic meeting of the civic league in the Baptist church tonight. The auditorium was crowded with people eager to do everything in their power to advance the interests of the city, probably fifty people being unable to find seats.

More than \$200 was raised by popular subscription to defray the expenses of a campaign for commission government.

W. C. T. U. Meet.

The W. C. T. U. will hold its regular meeting tomorrow (Wednesday) afternoon at 3 o'clock with Mrs. W. C. Rolow.

ENGINEER'S PLANS FOR WATERWORKS

WHAT WILL BE REQUIRED IN THE BYRD'S MILL EXTENSION.

The plans of the engineer contemplate the laying of a 12-inch steel or cast iron pipe from the Byrd's Mill spring to the Ada standpipe about thirteen miles in all. The water will be taken from the spring and run through a flume for about 2,500 feet. This will give it a fall of about fifty feet and be sufficient to give ample pressure for the two hydraulic rams which will be used in driving the water through the mains to Ada. The pipe will withstand a pressure of 500 pounds to the square inch, although there will not be over 200 pounds while two rams are being used. If steel piping is used it will require 1,800,000 lbs. of the material. If it should be found more advisable to use cast iron piping, it will require 7,000,000 pounds of that material for the line.

Two hydraulic rams will pump 1-200,000 gallons per day, but when the occasion demands three more can be installed and more than 2,000,000 gallons per day pumped. Estimating the consumption of water at 100 gallons per capita, this would supply a population of 20,000.

After a careful investigation the engineers estimate the cost of the line at around \$150,000. However, it should be borne in mind that this contemplates putting in a system that will be ample for the needs of the town for all time to come, and not require any more expenditures for enlarging it later. As the rams will be self-operating, very little expense will be attached to the operation of the system when once installed.

ARREST SIXTY FOR SUNDAY WORK

Sixty track-layers on the M. O. & G. railroad were arrested near the Red river bridge Sunday, by Constable Tom Tabor, of Kemp. The gang are charged with breaking the Sabbath law.

Constable Tabor took his squad of prisoners to Kemp where they appeared before Justice of the Peace Pleasant, and it is presumed all succeeded in giving bond, as the young army has not reached Durant.

Just what would have been the result had they failed to make bond, is hard to surmise. The county jail is now more than comfortably full, and with sixty railroad laborers (presumably of many races and several colors) added to the list of county guests the entertaining facilities of the jailor would have been painfully insufficient.

At the last term of the county court about seventy fines for Sabbath breaking were paid by the M. O. & G. contractors for their men who were arrested for working on Sunday. The fine in each case was one dollar. The total of fines and costs was about \$400.—Durant Democrat.

Paving Progressing.

Work of putting down the concrete base for the paving began on North Broadway this morning. This is about the last section of the work, but there is no sign of asphalt yet. However, E. S. Woodward, who was in charge of the asphalt part of the work, stated last week that he hoped to get his force organized for work this week.

SPEAKER ANTHONY NAMES EMPLOYEES

Oklahoma City, Nov. 28.—Speaker Anthony announced the following appointments of House employees: Rev. H. G. Snodgrass, Tulsa, chaplain; Miss Jeannette Collar, Guthrie, stenographer to speaker and clerk of committee on capital location; Seth Legbetter, Ardmore, postmaster; Randolph Cobb of Wewoka, Freeman Gault, Ardmore, pages; Andrew Woods, Guthrie, and Louis Loeffler, Oklahoma City, official reporters; Dan Dyche, Guthrie, and J. B. Meacham, Kiowa, engrossing and enrolling clerk; W. F. Durham, Tecumseh, legal clerk and proofreader of bills; C. H. Pittman, Oklahoma City, chief clerk; Albert Shields, Enid, assistant and calendar clerk; N. A. Gordon, Oklahoma City, reading clerk; E. F. Zumwalt, Frederick, journal clerk; J. C. Boucher, Ardmore, and W. J. Harding, Pottawatomie county, doorkeepers.

Both house and senate adopted a resolution by Senator Goulding instructing the sergeants-at-arms to bring to Oklahoma City from Guthrie the furniture and typewriters used for legislative sessions. Removal of the property by a state official is prohibited in the injunction issued by the Logan county district court, and which the supreme court sustained. But it can not be made to run against the officers of the legislature.

Complimentary tickets to the theater were distributed to members of the legislature tonight, and they witnessed a performance of "The House of a Thousand Candles."

Boys Find Missing Safe.

Muskogee, Ok., Nov. 28.—The iron safe containing \$16,000, which disappeared from the substation of the Wells-Fargo Express Company here some time Saturday night, was found today by two boys who were playing in a yard. It was hidden under an old porch. The safe was taken to police station and then to the express office, where it was opened in the presence of Superintendent A. T. Payne of Oklahoma City.

All the money was in the safe and not a penny was missing.

F. C. Givens, acting agent of the Midland Valley railroad company; O. C. Sensbaugh, a messenger of the express company, and W. H. Kelsey, a driver, who were arrested in connection with the case, were today arraigned before a Justice of the Peace and pleaded not guilty. Another arrest was made this afternoon. All of the men protest their innocence.

Tax Payments Coming In

The county treasurer reports that tax payments are rapidly increasing now. Collections range from \$400 to \$500 per day.

SEMINOLE NEGROES KILL EACH OTHER

BAD NEGROES USE GUNS WITH TELLING EFFECT.

Shawnee, Okla., Nov. 28.—Ex-chief of police, Frank Grall, who now is a farmer near Seminole, was in the city last night and brought the news of a double killing of two tough negroes near Wewoka Sunday night. The affair occurred between Frank Bruner and Eli Barrymore resulting in the killing of Bruner by Barrymore from a pistol shot from Bruner as soon as he was conveyed to Wewoka. These men had for a long time held a grudge against each other, and both were in Wewoka Sunday night. Bruner started off with the avowed intention of going to a celebrated tough gambling resort situated on Nigger Creek about four miles from Wewoka knowing that in all probability Barrymore would follow him. He concealed himself by the way side and when Barrymore came along he shot him through the side upon which Barrymore fell apparently dead. Bruner thought he had killed him, and came and stood over the fallen man who instantly raised his gun and shot his enemy through the body, killing him instantly. Barrymore was found by reason of the report of the guns and was taken to Wewoka where he immediately died. These men bore very bad reputations, Bruner being under indictment of the grand jury for killing his child, and also with two indictments against him for bootlegging. Barrymore had one indictment against him for assault and two for bootlegging. They were classed as very undesirable citizens.

ANOTHER CHANCE TO REMEMBER THE ORPHANS

The Baptist ladies are preparing a box for the Orphan's Home in Oklahoma City. Many have contributed liberally and they have a nice collection, but the box is not full yet, and they wish to say to their friends who might wish to have a part in this gift, that the box will remain open until Thursday. Those desiring to contribute, may send their donation to Mrs. Stubblefield's or bring it to prayer meeting Wednesday night.

Many Mortgages Released.

Register of Deeds Hargis states that this has been a record-breaking year for lifting mortgages. For some time past from 50 to 75 per day have been released by the register and more are coming. He says there is no way of estimating just how many have really been paid, for very often a man will carry an order for a release in his pocket for a month before thinking to bring it.

Occasionally we find a man who
thinks it is impossible for any man
to teach him anything, and that it is
impossible for him to be wrong about
anything. One of this kind became
lost in the woods and it was not
until he had wandered about for two
or three days that he was found.
"Why didn't you consult your com-
pass," some one asked him. "I did,"
he replied, "but the darned thing
kept pointing southwest."

Yesterday's Oklahoman suggested
that Oklahoma City provide a supply
of good water and ward off further
dangers of water famines by piping
a supply from the mountains of New
Mexico. A little far fetched the
scheme may sound, for it would cost
an immense sum to put it through,
but sometimes a great sacrifice must
be made to supply a town with wa-
ter. Byrd's Mill sounds close home
compared with New Mexico.

"United we stand; divided we fall,"
would be a most appropriate watch-
word for Ada just now. Living up
to the first part of the motto made
Oklahoma City what it is today,
while putting the second part into
practice has left many other towns
with more promise stranded high and
dry on the sands of failure. Where
will Ada land?

at this session and wanted plenty
of muscle with which to enforce or-

Why He Offered His Seat.

A well dressed woman boarded a
Farwell avenue car that had no vac-
ant seats. An elderly man, before
whom she stood, attempted to arise,
but she forced him back into his
seat, saying: "Please don't do that.
I am perfectly able to stand."

The elderly man expostulated,
"But, madam, I—"
"I insist upon you keeping your
seat," interrupted the woman, with
her hands on his shoulders. The
man continued his efforts to arise,
saying "Madam will you kindly per-
mit me to—"

With another push the woman
again forced him back, saying that
she couldn't think of accepting his
seat. With one supreme effort the
elderly man forced her aside. "Mad-
am," he exclaimed, "you have al-
ready carried me three blocks beyond
my destination. I don't care a tink-
er's thingumbob whether you take
my seat or not, but I wish to leave
this car."

And he did, amid the laughter of
the other passengers, in which the
woman had the good sense to join.

DR. PRICE'S Cream Baking Powder

Its superiority is unquestioned
Its fame world-wide
Its use a protection and a guarantee
against alum food

The low-grade powders are made from "phosphate alum," or "sodium alumi-
num sulphate," which is also alum, a mineral acid, and that makes the food unhealthy.

One pound of the imitation (25c.) powders contains five ounces of alum, a
mineral poison.

Food baked with alum baking powders is found to contain a portion of the
alum unchanged.

The continued use of alum made food impairs digestion, causing dyspepsia.

Housekeeping that the Chinese
statesman, Li Hung Chang, during
his first incumbency at Washington,
received from his American friends
a gift of two thoroughbred, exceed-

the toy breeds.

The givers received a note of
thanks in which the ceremonious Li
said that owing to impaired health

some time, and was unable to enjoy
the dogs, but that the members of
his legation had enjoyed them very
much.

MINE EXPLOSION KILLS 14 MEN

DREAFUL ACCIDENT AT JUMBO
MINE NEAR ANTLERS.

Antlers, Okla., Nov. 28.—Six hundred persons were gathered at the mouth of the Jumbo mines, twenty miles north of this city, this afternoon, part of them mourning for relatives who are entombed in the mines and part of them working with might and main to recover the bodies from their 290-foot grave. At 6 o'clock the bodies were recovered, and the greater part of the crowd dispersed. One man was taken out alive.

Nine men were entombed in the mine when an explosion wrecked it at 7:20 o'clock Monday morning, and five others just starting down to work were hurled 200 feet above the shaft into the air, and came down mere wrecks of humanity.

How the explosion occurred is a mystery. The only plausible explanation is a combination of the formation of gas and a bad lamp, but no danger from this source ever had been considered, and many claim to doubt it.

The mine men who were entombed had started to their work at 7 o'clock having succeeded the regular night shift at that time. Five men had just started their descent to the working level when with a roar that was heard for miles around, the entire area under which the mine is located appeared to sink down.

The cage which had started down, was hurled 200 feet above the mouth of the shaft, all its occupants being killed instantly. Those who were in the cage at the time were:

J. W. Carpenter, Richard Palmer, Charles Self, Will Brown and W. Z. Jones.

The nine men buried in the mine are: Henry Self, Dan McCarthy, J. W. Gould, Fars Lax, Thomas Stephens, Oland Malone, William Hawkins, J. W. Gillenwater and Gerrold Roberts was taken out alive.

A. M. Dougherty dropped dead in the telephone office at 9 o'clock from heart disease, caused by the excitement shortly more than an hour before.

W. C. MEASURING PARTY A SUCCESS

Last evening at the I. O. O. F. hall the Woodmen Circle ladies gave another of their enjoyable entertainments. The invitations read as follows:

A Measuring Party is given to you, "This something novel as well as new. With the invitation is the sack. For use in bringing or sending back Three cents for every foot you're tall Measure yourself on door or wall; An extra cent for each inch give. And thereby show how high you live. With light refreshments, games and pleasure.

We'll greet you for your price of measure.

Miss Allie Hughey stood at the entrance of the reception hall and received the filled sacks of measurement. Mrs. Wetherington assisted in measuring those who were not prepared with sacks. The reception committee then received their wraps and escorted them to their seats. Then a short musical program was rendered. Then a short explanatory talk on what the entertainment was given for and that we had games prepared. After the games Mrs. Kile passed around daintily prepared booklets entitled "Study in Inches." Mrs. Meadows then brought out a tempting looking cake and said there was something very valuable in the cake and the one guessing correctly would receive the cake.

Another amusing contest was guessing the circumference of a pumpkin. After all had had a chance at guessing Mrs. Kile awarded first and second prizes to the best and poorest answers. Refreshments were served and all expressed themselves as having spent an enjoyable evening.

KEEP YOUR HEAD UNCOVERED.

The Constant Wearing of a Hat Propagates Dandruff Germs.

There are many men who wear their hats practically all the time when awake, and are blessed with a heavy shock of hair; yet if the scalps of these same men once become infested with dandruff germs, the parasites would multiply all the quicker for lack of air. Baldness would ensue as the final result. Newbro's Herpicide kills these germs and stimulates unhealthy hair to abundant growth. Herpicide is a pleasant hair dressing as well as a dandruff cure and contains not an atom of injurious substance. Sold by leading druggists. WARNER'S AT THE PASTIME TONIGHT

All roads lead to the Pastime Theatre where hundreds were entertained last night by those vaudeville artists "The Two Warners" in their laughable sketch entitled "Love at

First Sight" or "Stung in the Park." There is not one dull moment from start to finish. Much credit must be given little Miss Ethel Warner for well does she deserve the title of the vaudeville nightingale when she renders her various selections. A complete change of program is scheduled for tonight and the manager predicts a record breaking attendance. The two Warners will appear tonight in their novel specialties including Spanish and Buck dancing, funny songs and comic sayings, and will render for the first time in your city that beautiful song entitled "Down in Oklahoma Where the Cotton Blossoms Bloom."

In connection with this high class vaudeville 2000 feet of motion pictures entitled "A Victim of Hate" and "The Moving Picture Man." All this goes to make up a superb entertainment that cannot afford to be missed. 201-1td

Governors Meet Today.

Frankfort, Ky., Nov. 28.—The public has taken such an interest in the governors' conference beginning here tomorrow that it may be necessary to make some important changes in the program. Secretary William G. Jordan has been deluged with letters suggesting matters of discussion and action the writers deem should be taken. Many of these are from cranks but as several of them are sound argument, cognizance will be taken of them in a meeting of the program committee to be appointed early tomorrow.

Four of the chief executives arrived today, but the majority will come tomorrow morning, several having spent the night in Louisville. Plans for entertainment have been made on a scale befitting the reputation of Kentucky's hospitality. Each governor will have an automobile at his disposal during his stay. Complete plans for entertainment of the first ladies of the twenty-four states to be represented have been made. The opening will begin by an address of welcome by Gov. Wilson, followed by one by Mayor Polsgrove of Frankfort. These will be responded to by Gov. A. J. Pothier of Rhode Island. Gov. Elect Woodrow Wilson of New Jersey will make an address the first day.

The governors will go to Louisville Wednesday morning, where they will hold conference until Saturday.

To Play Championship Game.

Norman, Ok., Nov. 28.—Oklahoma University will play a post-season football game. Though having defeated some of the strongest teams of the Southwest, she must defeat Epworth University before claiming the state championship. By comparative scores Epworth University at Oklahoma City claims the football championship of the state, she having defeated the Oklahoma Aggies 15 to 0, while the university was only able to defeat them 12 to 0. To settle the dispute as to the football championship of the state, the university will meet Epworth at Oklahoma City next Saturday in a post-season game.

It is hard to figure out just where Epworth stands, as she was defeated early in the season by the Oklahoma Christian University squad, yet she has beaten two comparatively strong teams, the Oklahoma A. and M. and the Texas Christian University, the latter of whom she overwhelmed 30 to 0.

The University team has been gaining in strength from the very beginning of the season, she having lost only one game, and that with the University of Missouri, and her recent victory over the University of Texas at Austin would seem to indicate if comparative scores are of worth, that Oklahoma is much superior to Epworth. Last year, however, Epworth held the Varsity squad 12 to 0, and she claims a stronger team this year than that of last.

Oklahoma is in splendid fighting shape, and has recently added four very strong men to her team, Burton, Reeds, Coots and Hoot, all four of whom made their 'O's' in the recent Texas Thanksgiving game.

Although a post-season game, it is expected to be the hardest fought and biggest football battle in Oklahoma this year, as it will settle definitely just who are the state champions.

An African Trip In the Niger Region.

The Benue river country is a complete failure for fresh fruit, in the dry season at least. Our visions of bananas hanging in large bunches along the river banks, oranges waiting to be gathered, pineapples springing out of the ground, and dozens of new and luscious kinds of fruits to vary one's meals, vanishes like a mirage of the desert. These fruits will grow there, but do not grow spontaneously to any extent. We saw not an orange above Onitsha on the lower Niger, and I remember no bananas above Lokoja, though they evidently have them in the rainy season. The only kinds of fruit we secured on that Benue river trip were limes—with which we made kind of lemonade—pawpaws, both ripe and green, and plantains. Frequently we would find none of these for days at a time. Our canned fruit and fruit jams were heavily drawn on because of this unforeseen lack. I remember with pleasure one circumstance before leaving America a friendly woman had contributed, as her offering toward the trip, a quantity of dried apples. In view of our ideas about fruit in Africa we seriously considered leaving them to some of our acquaintances at home, but, having some space in our boxes, we put them in. A part of these apples slipped through every repacking we made on our journey, including the last close sifting we made at Lokoja, where we left part of our goods in store to be drawn on by the two men who were to remain longest. I remember yet the pleasant surprise we experienced on finding these apples in the course of an inventory we were taking in view of our fruit
